

RIPPLE-1 STUDY
NOW ENROLLING!
NATIONALLY IN
AUSTRALIA AND
NEW ZEALAND

How can I get started?

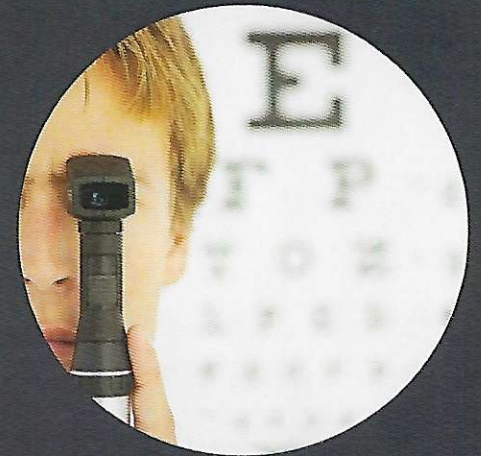

Step 1: Contact our Study Coordinator to learn more about the study and see if you are eligible. Contact information is on the inside of this brochure.

Step 2: Determine if you are eligible and give Informed Consent

The study team will explain the study procedures and the potential benefits and risks. To join the study, you must read and sign a document called an informed consent.

Step 3: Participate

If eligible, you will enter the study for 18 months. After getting the study treatment, you will visit the site 7 days later and then once a month.

DO YOU HAVE
DIABETIC MACULAR
OEDEMA OR RETINAL
VEIN OCCLUSION?

YOU MAYBE
ELIGIBLE FOR
A TREATMENT
RESEARCH
STUDY

KEEPING PATIENTS
IN SIGHT

WE ARE STUDYING A NEW TREATMENT

Study Investigational Treatment:

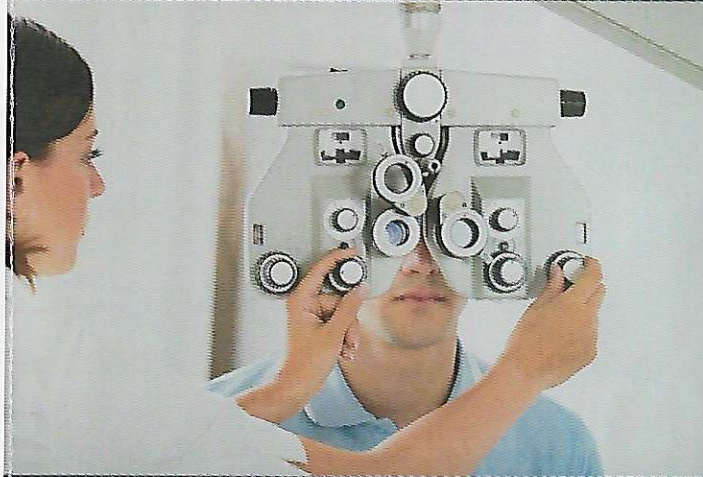

1. A small implant (one or two) containing slow release steroid medication will be placed in your eye.
2. The goal of the treatment is to decrease retinal swelling (oedema) and improve vision.

("Investigational" means it's not approved or available for use by the public.)

Version 1.0 dated 21/Jul/2021
